

# Nordic Semiconductor Non-Use Warranty Letter

Document ID: HSM\_008 Rev. 1.1

Nordic Semiconductor declares to prohibit the use of the following substances in our integrated circuits and modules sold and marketed as green.

| Chemical                            | Threshold Limit     |
|-------------------------------------|---------------------|
| Phthalates                          |                     |
| Di-isononyl phthalate, DINP         | Less than 1,000 ppm |
| Di-isodecyl phthalate, DIDP         | Less than 1,000 ppm |
| Di-n-octyl phthalate, DNOP          | Less than 1,000 ppm |
| Di-n-hexyl phthalate, DnHP          | Less than 1,000 ppm |
| Bis(2-methoxyethyl) phthalate, DMEP | Less than 1,000 ppm |
| Di-n-pentyl phthalate, DnPP         | Less than 1,000 ppm |
| Halogen                             |                     |
| Bromine (Br)                        | 900 ppm             |
| Chlorine (Cl)                       | 900 ppm             |
| Sum of Chlorine + Bromine           | 1,500 ppm           |
| Other Substances                    |                     |
| Hexabromocyclododecane (HBCDD)      | Total ban           |
| PFOS and PFOA                       | Not detected        |
| Antimony (Sb)                       | 700 ppm             |
| Beryllium (Be)                      | Not detected        |

## Authorized signatory for Nordic Semiconductor:

A handwritten signature in black ink, appearing to read 'Ola Boström', is placed on a light yellow rectangular background.
